

# Skills Bootcamp:

# Digital Device Repair

Sharpen Your Technical Know-How with the Digital Device Repair Skills Bootcamp

## What Is a Skills Bootcamp?

Skills Bootcamps are free, flexible training courses lasting up to 12 weeks, designed to help adults develop in-demand, job-ready skills – fast.

- Developed with employers to match real industry needs
- Flexible learning options: online, in-person, or blended
- Finish with a guaranteed interview for a job in your chosen field

Delivered by: **AKR Growth** – a trusted training provider helping learners transition into technical roles with confidence.

## Why Choose the Digital Device Repair Bootcamp?

- Learn the essential technical skills to diagnose, troubleshoot, and repair a variety of digital devices.
- Training is co-developed with industry partners to ensure real-world relevance.
- Enjoy flexibility—options include in-person, online, or blended learning to fit your schedule.
- Upon completion, you'll secure an interview with a relevant employer, helping you land your next opportunity.

## Who Can Apply?

- Are 19 years or older
- Must live in England and have the right to work in the UK.
- Have the right to work in the UK
- Are committed to completing the course and taking the next step in your career

**No prior qualifications or experience needed – just basic digital literacy and a willingness to learn!**

## Support & Additional Benefits

**Comprehensive, wraparound support including:**

- Career coaching—CV writing, interview prep, mock interviews.
- Personal development—time management, communication, problem-solving.
- Ongoing check-ins during and after the course to track progress and employment status.
